

# Hi-Tech

## Technical Bulletin

### Product Description

---

Hi Tech contains high levels of water softening agents and scale inhibitors to keep dishwashers sparkling clean with no need to descale.

Hi Tech is a heavy duty cleaner and removes the heaviest soiling with ease.

The concentrated formula means a drum lasts a long time to give excellent economy in use.

### Applications

---

#### How To Use

Hi Tech is automatically dispensed by an electronic feeder supplied on loan from Dominant. Simply change the drum when empty.

### Technical Data

---

Hi Tech is based on potassium hydroxide, a strongly caustic ingredient. It also contains a blend of water softening agents, corrosion inhibitors and soil dispersants. Hi-Tech is also phosphate-free.

Hi Tech is non foaming. The normal use level for machine dishwashing is between 1.0 – 1.5 g/L.

For use as a laundry break Hi Tech is used at 20 – 40ml / 5kg load.
